IF-1351-003	Casio QT-2000 Serial Interface	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Casio dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work. This Interface can also be installed with Casio TE-4500 & T8500 ECR's.
IF-1351-008	Casio QT-2100 Serial Single Point Interface	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Casio dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work.

IF-0829-058	Citizen CBM-710 Serial Interface	5001 Serial Basic+	
IF-0829-047	Citizen iDP 3540 / 3541 Serial Interface	5001 Serial	
IF-0858-006	Citizen iDP 3540/3541 Parallel Interface	5002 25-Way Parallel	
IF-0829-055	Cummins-Allison Jetsort	5001 Serial	
IF-0829-023	Datacash Interface	5001 Serial	This interface is only compatible with Datacash Terminal fitted with an Epson TM-930II Printer. For development times on other printer options consult SIDG.
IF-0829-094	DataSym 2020 Serial Slip Printer Port Interface	5001 Serial Basic+	
IF-0829-115	DECPOS Display Port Interface	5001 Serial Basic+	
IF-0829-116	DIGIPOS Display Port Interface	5001 Serial Basic+	
IF-0829-011	Dresser Wayne Marketeer 2000 (E 512)	5001 Serial	Dresser Wayne has released this terminal with two printer options either an Epson or an Olivetti . The exact terminal configuration must be checked before the interface is ordered. The interfaces are not interchangeable.
IF-0829-013	Dresser Wayne Marketeer 2000 (PR 45)	5001 Serial	Dresser Wayne has released this terminal with two printer options either an Epson or an Olivetti . The exact terminal configuration must be checked before the interface is ordered. The interfaces are not interchangeable.
IF-0829-135	Dresser Wayne Nucleus 8 with Olivetti PR-4 Serial Printer	5001 Serial Basic+	
IF-0829-149	Dresser Wayne Nucleus 9 Serial	5001 Serial Basic+	
IF-1342-002	Dresser Wayne Nucleus RS-422 Display Port Interface	5001 Serial Basic++	The American and European versions of this terminal have diversified and this means that it can no longer be regarded as a global system. The American version produces receipts on demand and maintains an electronic journal so we have to interface to the RS-422 customer display. We should be able to interface to the 'rebadged' Olivetti printer of the European version, which has the pre-fix 'ISM' in the model number
IF-0829-035	Dresser Wayne Olivetti Interface	5001 Serial	Dresser Wayne has released this terminal with two printer options either an Epson or an Olivetti . The exact terminal configuration must be checked before the interface is ordered. The interfaces are not interchangeable.
IF-0858-009	Dresser Wayne CDU 5000 Customer Display Parallel	5002 25-Way Parallel	
IF-0841-083	DTS 545 Interface	5001 Parallel ECR	There are a range of DTS 545 terminals with a variety of printers and application software installed in the field. Compatibility must be checked with SIDG Ltd before any lead times can be quoted.
IF-0841-069	Edacom 10 Interface	5001 Parallel ECR

IF-0878-008	Epson TM-300 Parallel Interface	5002 Centronics Parallel	
IF-0829-054	Epson TM-375 Serial Interface	5001 Serial	
IF-0878-012	Epson TM-H15000 / TH-H6000 Parallel Printer Interface	5002 Centronics Parallel	
IF-0829-067	Epson TM-H15000 / TM-H6000 Serial Interface	5001 Serial Basic+	Epson have released an IBM Legacy System version of both the TM-H15000 & TM-6000 printer which emulates an IBM M4 printer. If this Epson printer is installed with an IBM terminal check if it is being driven as an Epson EScPos Device or as an IBM M4. If the printer is being driven by a IBM M4 then IF-0739-01 should be ordered.
IF-0878-003	Epson TM-T80 Parallel Interface	5002 Centronics Parallel	
IF-0878-006	Epson TM-T88 Parallel Interface	5002 Centronics Parallel	
IF-0858-011	Epson TM-T88 Parallel Interface (25-way "D")	5002 25-Way Parallel	
IF-1349-003	Epson TM-T88 Serial Meggit X-Port Interface	5001 Serial Basic+i2	
IF-0829-063	Epson TM-T88 Serial Interface	5001 Serial Basic+	
IF-0829-117	Epson TM-U210/ 220 / 230 Serial Interface	5001 Serial Basic+	
IF-0878-010	Epson TM-U210D Parallel Printer Interface	5002 Centronics Parallel	
IF-0829-052	Fortronic F75 Interface	5001 Serial	
IF-0841-087	Fujitsu G2220 Interface	5001 Parallel ECR	
IF-0829-092	GEAC/REMANCO TST Display Port Interface for Rock Garden UK	5001 Serial Basic+	Customer Specific Interface
IF-0841-100	GEC Avery C110 Interface	5001 Parallel ECR	
IF-0841-084	GEC Avery S100E Interface	5001 Parallel ECR	
IF-0841-114	Geller ET-6600	5001 Parallel ECR	
IF-0829-102	Geller ET-6800 Serial Interface	5001 Serial Basic+	This interface requires the installation of an additional RS-232 board. The cost of the associated re-programming of the register is not included in the interface price.
IF-0841-120	Geller NT-2324	5001 Parallel ECR	
IF-0841-076	Geller TOWA MP2	5001 Parallel ECR	
IF-0829-034	Geller TOWA MP2 Serial Interface	5001 Serial	A serial version of this interface has been released. This interface will only work of Geller install an additional serial board and upgrade the ECR software to included layaway EPROMS, the additional hardware and software is not supplied by SIDG.
IF-0841-079	Geller TOWA MP3 Interface	5001 Parallel ECR	
IF-0841-094	Geller TOWA NT 1204 Interface	5001 Parallel ECR	
IF-0841-109	Geller TOWA NT 3412 Interface	5001 Parallel ECR	
IF-0829-104	Geller Vectron Mini-POS Serial Port Interface	5001 Serial Basic+	The Geller-Vectron is a networked terminal and will most likely be configured to share a receipt printer and produce an electronic rather than paper journal. The Geller-Vectron has six RS-232 ports and provided that one of these ports is unoccupied then the terminal could be programmed as if a journal printer was attached to provide a data source for a POS/EM system. Programming would have to be completed by a Geller Cash Register dealer and is not included in the interface price.

IF-0829-056	TEC FS 4511 Interface	5001 Serial Basic+	This interface requires that the TEC FS4511 terminal be programmed to out put data on to an Epson TM-270 Printer. Access to the programming area of the terminal's memory maybe password protected. You must ensure that the client knows all the relevant passwords before installation commences. There are also a number of TEC FS 4510 terminals installed were the interface is not compatible with this terminal.

IF-1351-006	Uniwell LX-5700 Serial Port	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Uniwell dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work.
IF-1351-007	Uniwell SX-6600 Serial Port	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Uniwell dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work.
IF-1351-005	Uniwell TX-850 Printer Port (Epson TM-T88 - not fitted)	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Uniwell dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work.
IF-1351-009	Uniwell TX-850 Serial (Journal) Port	500 Serial Basic+ i3	This Interface can only be installed if one of the RS-232 ports are unused. The ECR will also have to be re-programmed to output data from one of these ports. The cost of this programming is specifically excluded from the price of the Interface. It is the responsibility of the installer to contract a Uniwell dealer (or similar) to program the ECR and to satisfy themselves as to the competence of the dealer to carry out any such work.

IF-0841-089	Uniwell UN 4000 MS Interface	5001 Parallel ECR	
IF-0829-048	Uniwell UX 7000 Interface	5001 Serial	This interface requires an additional RS-232 board is installed in the register and that the software on the main PCB of the ECR is upgraded, to version 3.09 or later, to allow the output of both prices and product descriptions. Uniwell also warn that if the software is upgraded from a release 2.xx version then ECR programming details must be saved before the EPROM's are changed as the memory mapping is significantly different between software versions 2.xx and 3.xx. SIDG Ltd does not supply the RS-232 board or any required software upgrades. Costs are not included in the price of the interface.
